CRITICAL

Missing canonical tag — risk of duplicate content

Impact: Duplicate content can split your PageRank and confuse Google

Fix: Add `<link rel="canonical" href="https://yoursite.com/page/">` in `<head>`

Category Breakdown

Failed Checks — Issues to Fix (98)

Priority	Category	Issue	Business Impact	How to Fix
HIGH	Meta	Description length: 171 chars (too long)	Optimal length can increase CTR by 10-15%	Rewrite description to 120-160 characters. Include call-to-action and target keyword.
HIGH	Content	Only 248 words — thin content may rank poorly	Comprehensive content tends to outrank thin pages (industry correlation studies)	Expand content to at least 500-1000 words. Add value, not fluff. Answer related questions.
HIGH	Social	Missing og:image — social shares will lack visuals	Missing image = 50-70% lower social CTR	Add <meta property="og:image" content="https://yoursite.com/share-image.jpg">. Use 1200x630px image.
HIGH	Technical	No /sitemap.xml found — create one for better crawling	Without a sitemap, new and deep pages may not get discovered and indexed	Generate sitemap.xml and submit to Google Search Console. Update it when you add new pages.
HIGH	Aeo	No question-style headings — try "How to...", "What is..."	Question headings increase AI extraction rate by 35%	Convert 3-5 headings to question format: "How to..." "What is..." "Why does..." "When should..."
HIGH	Geo	Single-perspective content — add "on the other hand..." for balance	Balanced, multi-perspective content is preferred by generative engines	Add "experts say..." "according to..." "another perspective..." Include 2-3 different viewpoints.
MEDIUM	Other	1 of 1 images use legacy formats (JPG/PNG/GIF) — convert to WebP/AVIF for 25-50% smaller files	-	-
MEDIUM	Content	No external links — consider linking to authoritative sources	Minor ranking factor, but improves E-E-A-T perception	Add 1-3 links to high-authority sources (Wikipedia, official docs, research papers)
MEDIUM	Other	1 non-descriptive link text(s) found ("learn more"...) — use descriptive anchor text for SEO	-	-
MEDIUM	Social	Missing og:title — poor social sharing	Missing OG tags hurt social engagement — shares appear without image/title preview	Add <meta property="og:title" content="Your Share Title">
MEDIUM	Social	Missing og:description	Poor social preview = fewer clicks from social media	Add <meta property="og:description" content="Compelling share description">
MEDIUM	Social	Missing og:url — social platforms may use wrong URL	-	-
MEDIUM	Social	Missing og:type — defaults to "website"	-	-
MEDIUM	Social	Missing og:site_name — helps brand recognition in shares	-	-
MEDIUM	Social	Missing twitter:card meta tag	-	-
MEDIUM	Social	Missing twitter:title	-	-
MEDIUM	Social	Missing twitter:description	-	-
MEDIUM	Social	Missing twitter:image	-	-
CRITICAL	Technical	Missing canonical tag — risk of duplicate content	Duplicate content can split your PageRank and confuse Google	Add <link rel="canonical" href="https://yoursite.com/page/"> in <head>
MEDIUM	Technical	No hreflang tags — add if targeting multiple languages	-	-
MEDIUM	Content	Text-to-HTML ratio: 5.4% — too code-heavy, add more content	-	-
MEDIUM	Technical	Inline CSS: 18.2 KB — too much, move to external stylesheet	-	-
MEDIUM	Other	No font preload/preconnect — add for faster rendering	-	-
MEDIUM	Other	Missing X-Content-Type-Options header	-	-
MEDIUM	Security	No Content-Security-Policy header — XSS risk	Hacked sites get de-indexed. CSP reduces hack risk.	Add CSP header. Start simple: Content-Security-Policy: default-src 'self'; script-src 'self' 'unsafe-inline'
MEDIUM	Other	No Contact page link detected — add for trust signals	-	-
MEDIUM	Other	No Privacy Policy link — required by GDPR and improves trust	-	-
MEDIUM	Other	No Terms of Service link — add for legal compliance and trust	-	-
CRITICAL	Schema	No JSON-LD structured data found	Rich results typically earn a higher CTR than plain results	Add JSON-LD schema. Start with Article, Organization, or LocalBusiness. Use Google's Schema Markup Tool.

Priority	Category	Issue	Business Impact	How to Fix
MEDIUM	Technical	robots.txt does not reference Sitemap — add Sitemap: URL	-	-
MEDIUM	Technical	No Web App Manifest — add for installability and modern web signals	-	-
MEDIUM	Technical	No dns-prefetch or preconnect hints — add for faster third-party loading	-	-
MEDIUM	Other	0% sentences use transition words — aim for 20%+	-	-
MEDIUM	Other	No max-image-preview:large — add to robots meta for Google Discover	-	-
MEDIUM	Other	Missing X-Frame-Options — clickjacking risk	-	-
MEDIUM	Other	No Referrer-Policy header — may leak URL data	-	-
MEDIUM	Other	No Permissions-Policy — restrict camera/mic/geo access	-	-
MEDIUM	Other	No RSS/Atom feed in <head> — add for content discovery by aggregators and AI	-	-
CRITICAL	Aeo	No structured data — AI systems struggle to categorize your page	Structured data helps AI engines parse and cite your content reliably	Add JSON-LD schema for your content type (Article, Product, FAQ, HowTo). Start with basics.
MEDIUM	Aeo	Missing meta description or og:description — unclear topic for AI	-	-
MEDIUM	Other	No definition lists (<dl>) — great for term/value pairs	Definition lists give AI engines clean term/value pairs to extract	Use <dl><dt>Term</dt><dd>Definition</dd></dl> for key concepts. AI can extract these easily.
MEDIUM	Other	No code blocks — add <code>/<pre> for technical content	-	-
MEDIUM	Aeo	No FAQ/Q&A section found — Q&A content helps AI extraction (FAQ schema markup is optional since Google retired FAQ rich results in May 2026)	-	-
MEDIUM	Aeo	Few or no lists — add bullet/numbered lists for better AI parsing	-	-
MEDIUM	Aeo	No data tables — tables help AI compare and cite data	-	-
MEDIUM	Aeo	No numbered steps or ordered lists — add for "how to" AI answers	-	-
MEDIUM	Other	Few key-value patterns — use ""*Label:** value" format for AI	-	-
MEDIUM	Aeo	No author information — AI values attributed content	-	-
MEDIUM	Other	No date information — AI prefers fresh, dated content	-	-
MEDIUM	Aeo	No Organization schema — AI may not recognize your brand	-	-
MEDIUM	Aeo	Only 1/5 E-E-A-T signals — add about, contact, author info	-	-
MEDIUM	Aeo	No source citations — reference studies and data for authority	-	-
MEDIUM	Aeo	Few external links — cite authoritative sources for AI trust	-	-
MEDIUM	Other	Pronoun density: 0.8% — add more "you/your" for engagement	-	-
MEDIUM	Aeo	No summary section — add Key Takeaways for AI extraction	-	-
MEDIUM	Other	Few Q&A blocks — add question headings followed by answer paragraphs	-	-
MEDIUM	Other	robots.txt blocks AI search crawlers (2/8 blocked) — blocked bots (GPTBot, OAI-SearchBot, ClaudeBot, PerplexityBot etc.) cannot cite your content	-	-

Priority	Category	Issue	Business Impact	How to Fix
MEDIUM	Aeo	No Table of Contents — add jump links for AI content navigation	-	-
MEDIUM	Aeo	No video content — multimedia increases AI engagement and citation rate	-	-
MEDIUM	Aeo	Statistics lack source references — attribute data to boost AI trust	-	-
MEDIUM	Aeo	No <details>/<summary> elements — use for expandable Q&A content	-	-
MEDIUM	Geo	No clear definitions — add "X is..." patterns for AI Overview	-	-
MEDIUM	Geo	Few question headings — add Q&A headings for AI Overview	-	-
MEDIUM	Geo	Content may be too thin for AI Overview (248 words, 2 sections)	-	-
MEDIUM	Geo	No step-by-step content — add numbered guides for AI	-	-
MEDIUM	Geo	14% optimal paragraphs — aim for 20-80 words per paragraph	-	-
MEDIUM	Geo	No author schema — add for AI trust signals	-	-
MEDIUM	Geo	Only 1/5 trust signals — add reviews, certifications	-	-
MEDIUM	Other	Incomplete brand identity — add og:site_name + Organization schema	-	-
MEDIUM	Other	No original data signals — "our research shows..." boosts AI citation	-	-
MEDIUM	Geo	No expert quotes — add professional opinions for credibility	Expert quotes increase E-E-A-T signals by 20%	Add quotes from industry experts, researchers, or authorities. Use <blockquote> tags.
MEDIUM	Other	No examples or case studies — add real-world examples	-	-
MEDIUM	Geo	Few industry terms — use relevant jargon for topical authority	-	-
MEDIUM	Geo	No links to authoritative sources — cite Google, Schema.org, etc.	-	-
MEDIUM	Geo	Few external source domains — diversify your references	-	-
MEDIUM	Geo	No comparison content — add vs. sections for AI recommendations	-	-
MEDIUM	Geo	No summary section — add Key Takeaways or TL;DR for AI	-	-
MEDIUM	Geo	No BreadcrumbList schema — add for better AI context	-	-
MEDIUM	Other	No data tables or charts — add structured data visualizations	-	-
MEDIUM	Geo	No lists found — add lists for structured content	-	-
MEDIUM	Geo	Only 0/6 formatting types — use bold, lists, tables, quotes, code	-	-
MEDIUM	Geo	No conclusion — add recommendations or a verdict section	-	-
MEDIUM	Geo	No entity Schema types — add Person, Product, or Organization schema	-	-
MEDIUM	Geo	4/14 semantic elements — add <article>, <figure>, <time>, etc.	-	-
MEDIUM	Other	No <time> elements — wrap dates in <time datetime="...">	-	-
MEDIUM	Other	No categorization signals — add breadcrumbs or category labels	-	-
MEDIUM	Geo	Incomplete Open Graph tags — AI uses these for context	-	-

Priority	Category	Issue	Business Impact	How to Fix
MEDIUM	Geo	No canonical URL — AI may index duplicate versions	-	-
MEDIUM	Geo	Only 0 Schema type(s) — add more for AI context	-	-
MEDIUM	Geo	1 image(s) with generic/short ALT text — use descriptive text	-	-
MEDIUM	Geo	Only 248 words — AI systems prefer content with 300+ words for comprehensive analysis	-	-
MEDIUM	Other	Missing definition or list format — combine "X is..." with lists for snippets	-	-
MEDIUM	Other	Only 0 data points — adding statistics measurably boosts generative-engine visibility (GEO study, arXiv:2311.09735)	-	-
MEDIUM	Other	Author lacks credentials — anonymous content is a GEO penalty	-	-
MEDIUM	Geo	Only 1/6 question types — add What, Why, How headings	-	-
MEDIUM	Geo	No <figure>/<figcaption> — wrap images with descriptive captions for AI	-	-
MEDIUM	Other	No authoritative sameAs links — add Wikipedia/Wikidata/LinkedIn URIs to schema for entity disambiguation	-	-
MEDIUM	Other	3 AI crawler(s) blocked/challenged: GPTBot, ClaudeBot, PerplexityBot — cannot index this page	-	-

Passed Checks — What's Working Well (95)

SEO (53 passed)
' Title tag found: "Sathya Sai Prema Kuterram — Home"
' Title length: 32 characters (optimal)
' Meta description found (171 chars)
' Viewport meta tag found (mobile-friendly)
' UTF-8 charset declared
' Language attribute set on HTML tag
' No meta refresh redirect (good)
' No robots meta tag (default: index, follow)
' Single H1 tag found
' Title-H1 alignment: 75% word overlap (good)
' 2 H2 tags found
' Heading hierarchy is correct
' Readability: 39 (moderate — aim for 60+)
' 21% long sentences (>20 words) — good readability
' All 1 images have ALT text
' All 1 images have width/height attributes (prevents CLS)
' No below-fold images to lazy load
' 23 internal links found
' No empty href attributes found
' HTTPS enabled
' Favicon found
' Apple touch icon found
' Compression: enabled (vary: accept-encoding)
' URL length: 57 chars (good)
' URL uses hyphens or no separators (good)
' No deprecated HTML tags found
' Inline JS: 1.2 KB (acceptable)
' All 3 external scripts use defer/async
' Cache-Control: public, max-age=0, must-revalidate
' HSTS header present — enforces HTTPS
' About page link found — builds trust and E-E-A-T
' Author byline found
' <!DOCTYPE html> declared
' No mixed content — all resources use HTTPS
' font-display: swap detected — prevents invisible text
' Viewport includes width=device-width (responsive)
' robots.txt found and allows crawling
' No AI crawlers blocked in robots.txt — AI search and training can access content
' All 5 checked internal links are working
' 0% nofollow links (0/23) — good link equity flow

SEO (53 passed)

- ' H1 length: 25 characters (optimal)
- ' Title and meta description are different (good)
- ' Viewport allows zoom (good for accessibility)
- ' 24 links on page (within limit)
- ' DOM size: ~178 elements (good)
- ' No snippet blocking detected (good — content is fully accessible)
- ' No render-blocking scripts in head (good)
- ' 0 third-party script domain(s) (acceptable)
- ' ARIA landmarks present: main, nav, skip-link
- ' All 0 form input(s) have labels or aria-labels
- ' No duplicate IDs found (20 unique IDs)
- ' No iframes on page
- ' All 2 H2 sections have sufficient depth (avg 81 words)

AEO (22 passed)

- ' 248 words in HTML — good content for AI parsing
- ' Clean URL structure
- ' 4 semantic HTML5 elements found
- ' 5 content sections — well-structured for AI
- ' 23 named entities found — helps AI understand context
- ' 23 internal links — good topic cluster signal
- ' Concise answer paragraphs after headings — great for AI citation
- ' 79% short sentences — easy for AI to extract
- ' 100% concise paragraphs — scannable for AI
- ' Avg 129 words/section — sufficient depth
- ' Statistics and data found in content — highly citable
- ' Content references 2026/2025 — fresh content
- ' Topic focus: 100% — title keywords found in content
- ' 7 answer-box-ready paragraphs found after headings
- ' 7 conversational words — good for AI summaries
- ' First paragraph is snippet-ready (20-60 words)
- ' Avg 19 words/sentence — easy reading level
- ' Active voice dominant (0% passive) — AI-friendly
- ' 9 H2/H3 headings — good content structure for AI
- ' No AI-blocking robots directives — AI crawlers can access content
- ' Freshness signal found (Last-Modified header or dateModified)
- ' Content updated within 90 days — AI engines strongly prefer fresh content

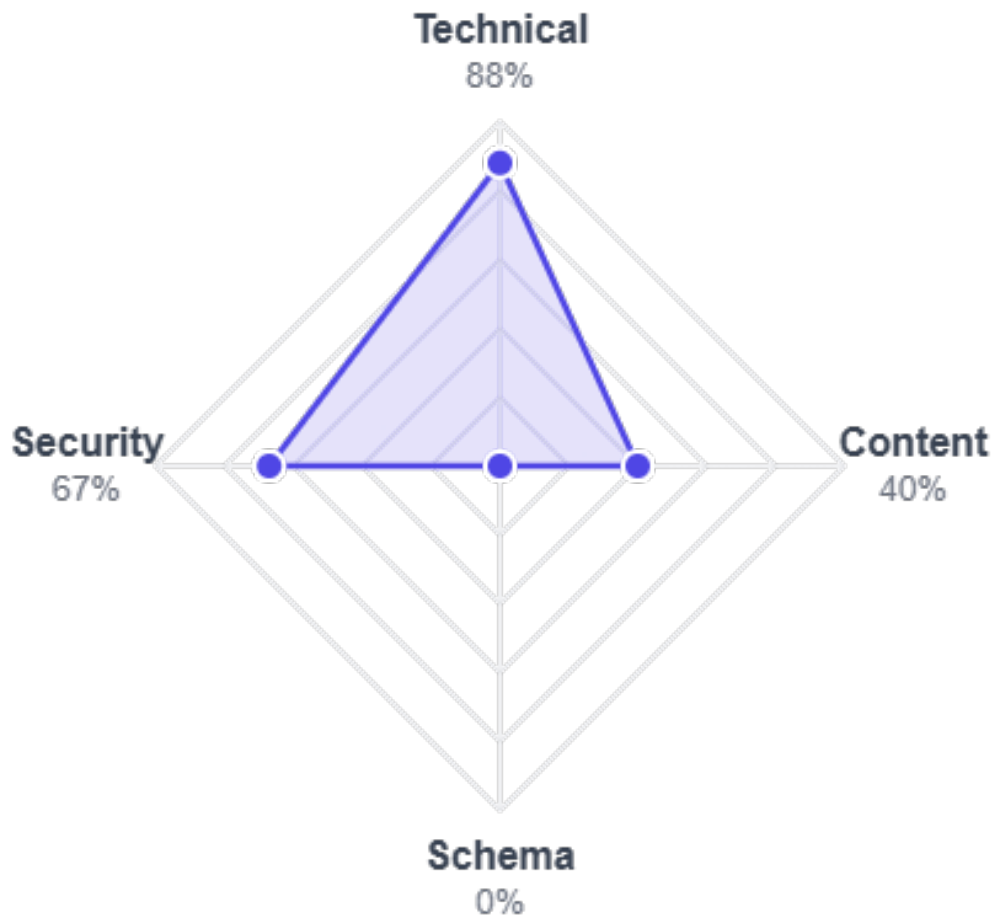

GEO (22 passed)

- ' Content freshness signals detected
- ' Title and H1 are aligned — clear topic focus
- ' 3-level heading hierarchy — deep content structure

GEO (22 passed)

- ' Source citations found — increases AI trust
- ' 1 images all with ALT text — AI can understand visuals
- ' Actionable advice found — AI prefers practical content
- ' 100% title keywords in first 200 words — good prominence
- ' 17 contextual links — good cross-referencing
- ' 2 sections have subtopics (H3) — deep coverage
- ' Mobile-friendly (viewport set)
- ' HTTPS secure — trusted by AI systems
- ' Page size: 31 KB — reasonable
- ' Page allows AI indexing (no noindex/nosnippet)
- ' HTML lang="en" set (add og:locale for completeness)
- ' 3 ARIA landmarks found — good accessibility for AI
- ' First 200 words contain topic keywords — AI extracts primarily from the start
- ' No snippet restrictions — AI can freely extract content (good)
- ' Link anchor texts are descriptive — good AI context signal
- ' No hidden-text cloaking patterns detected
- ' No keyword-stuffing detected
- ' Healthy content-to-chrome ratio (~22% boilerplate)
- ' No intrusive interstitial/paywall signals
